MEMORANDUM FOR DR. HORACE S. CRAIG
Chief, Special Projects Staff
Operations Coordinating Board

Subject: Draft Paper No. 15--Quantico Panel--Thresholds of
Armaments Efforts, U.S. and U.S.S.R.

I am very grateful to you for your memorandum of October 11 with its comment on the above-cited paper.

Your suggestions were genuinely constructive, and I have tried to give them weight in my redraft of the paper.

Again thank you for your generous cooperation that has helped me in attempting to fill an assignment that I accepted very reluctantly since it carried me into a field in which I am painfully aware of the limitations of my competence.

I wish to express my further appreciation of your consideration in sending over an unclassified IRI Intelligence Memorandum entitled "A Soviet Scholar Analyzes Brazil's Economy." I have read this document with great interest and with a considerable amount of awe not for the point of view expressed, which was predictable, but for its extraordinary virtuosity in assembling so great a volume of misinformation to bolster the Communist position. I have brought it to Nelson Rockefeller's attention.
